Subject: Flyers Creek Wind (MP08\_0252) - Operational Environmental Management Plan

Dear Mr. Vavladellis,

I refer to your request for review and approval of the Operational Environmental Management Plan for Flyers Creek Wind Farm (MP08\_0252). I also acknowledge your emailed response to the Department's review comments and request for additional information.

The Department has carefully reviewed the document and is satisfied that it generally meets the requirements of the relevant conditions of approval (MP08\_0252). Accordingly, as nominee of the Planning Secretary, I conditionally approve the Operational Environmental Management Plan (Rev 1, dated 19 May 2025) under Schedule G, Condition G11.

The Department requires Flyers Creek Wind Farm to revise and resubmit the Bird and Bat Adaptive Management Program by Friday 29 August 2025 to ensure Schedule D, Condition D4 is satisfied. The revised Bird and Bat Adaptive Management is to be consulted with Conservation Programs, Heritage and Regulation within NSW DCCEEW (CPHR), formerly Biodiversity, Conservation and Science directorate in the Department (BCS).

You are reminded that if there are any inconsistencies between the Operational Environmental Management Plan and the conditions of approval, the conditions prevail. Please ensure you make the document publicly available on the project website at the earliest convenience. If you wish to discuss the matter further, please contact Scotney Moore, on 02 9274 6342.

Yours sincerely

Nicole Brewer  
Director  
Energy Assessments

As nominee of the Planning Secretary
