## **Iberdrola extends takeover offer to Wednesday 9 September 2020 and announces that it will ask the Board to consider whether Infigen should apply for delisting from the ASX.**

On Wednesday, 26 August 2020, Iberdrola Renewables Australia Pty Limited (Iberdrola) advised the market and Infigen (IFN: ASX) that it had extended its off-market takeover offer (the Iberdrola Offer) such that it will remain open for acceptance until 7.00pm (Sydney, Australia time) on Wednesday, 9 September 2020, unless further extended.

Iberdrola also announced in its eighth supplementary bidder's statement that it will ask the Infigen Board to consider whether it is appropriate for Infigen to request to be removed from the official list of the Australian Securities Exchange (ASX) given that only 3.5% of Infigen Stapled Securities are now held by minority Infigen Security Holders.

Infigen's Independent Directors urge remaining Infigen Security Holders to **ACCEPT** the Iberdrola Offer **NOW, without delay** so that their Acceptance Form may be processed before the scheduled close of the Iberdrola Offer.

The Iberdrola Offer price of 92 cents per Infigen Stapled Security is at a 82% premium to the 3 month VWAP and a 37% premium to the average analyst price target<sup>1</sup>. Given the subdued outlook for Infigen's near-term earnings and the likely requirement for additional capital to fund Infigen's growth strategy, Infigen's Independent Directors have unanimously determined that the Iberdrola Offer represents a compelling balance of value and certainty for Infigen Security Holders.

Prior to 8:38am on Thursday, 27 August 2020, Iberdrola received acceptances and acquired over 76.5% of Infigen Stapled Securities, including acceptances from all major institutional securityholders, demonstrating the attractiveness of the Iberdrola Offer and resounding support from the majority of Infigen Stapled Security Holders. As a result, Iberdrola can cast a majority vote and also now has the ability to pass a special resolution at a general meeting of Infigen Security Holders. Furthermore, as announced on Friday 21 August 2020, the majority of Infigen's Board of directors is now comprised of Iberdrola nominees. Consequently, Iberdrola has control of Infigen, including over Infigen's strategy, capital allocation policy and financial reporting framework.

In addition, UAC Energy Holdings Pty Limited has voting power of 19.94% in Infigen. **Remaining Infigen Security Holders therefore represent less than 3.5% of Infigen Stapled Securities.**

---

<sup>1</sup> VWAP calculated to the last undisturbed trading date for Infigen Stapled Securities of 2 June 2020. Average analyst price target of 67 cents per Infigen Stapled Security calculated as at that last undisturbed trading date.

Therefore, as a remaining Infigen Security Holder, **you are now a minority investor**, with limited rights and substantial risks associated with your investment. As outlined in Infigen's Fourth Supplementary Target's Statement dated 10 August 2020, these risks include, but are not limited to:

- (1) the risk that the market price of Infigen Stapled Securities will fall after the close of the Iberdrola Offer, reflecting the removal of the control premium pertaining to the Iberdrola Offer;
- (2) the risk that Infigen Stapled Securities will have lower levels of trading liquidity, a factor which may influence your ability to sell your Infigen Stapled Securities, and the price you may receive on the sale of those Stapled Securities;
- (3) the risk that Infigen is delisted from the ASX; and
- (4) the risk that Infigen may choose to raise additional equity to meet the capital requirements of Infigen's business strategy.

**If you choose to remain a minority Infigen Security Holder, you will be exposed to these risks.**

Infigen's Independent Directors urge investors to ACCEPT the Iberdrola Offer, in order to achieve the compelling combination of value and certainty provided by the all-cash offer of 92 cents per Infigen Stapled Security.

If you require a replacement Acceptance Form, or assistance in accepting the Iberdrola Offer, please contact the Iberdrola helpline on: **1800 830 977**.

## About Infigen

Infigen is leading Australia to a clean future, today. Our strategy is to provide Australian businesses with firm supplies of reliable and competitively priced clean energy.

We generate renewable energy from our fleet of owned wind farms. We also source renewable energy from our portfolio of contracted assets. We manage intermittency risk with our fast start assets, enabling us to provide our customers with firm prices and firm volumes for renewable energy.
