<sup>1</sup> After marginal loss factors.

<sup>2</sup> Net revenue is reported as gross revenue minus the cost of sales. The decline in revenue is attributable to a number of factors including lower production from Infigen owned assets, lower spot prices and a changed portfolio mix which has increased C&I contract sales.

### **About Infigen Energy**

Infigen is a leading Australian Securities Exchange (ASX) listed energy market participant delivering energy solutions to Australian businesses and large retailers.

Infigen supplies clean energy from a combination of renewable energy generation and firming solutions available from the broader energy market to Australian business customers.

Infigen is a licensed energy retailer in the National Electricity Market (NEM) regions of Queensland, New South Wales (including the Australian Capital Territory), Victoria and South Australia.

The company has wind generation assets in New South Wales, South Australia and Western Australia.

Infigen is also developing options for firming in the NEM to support its business strategy.

Infigen is proudly Australia's largest listed owner of wind power generators by installed capacity of 557 MW, with a further 113 MW under construction in New South Wales and actively supports the communities in which it operates.
